CHECKLISTS

General Report Comments: PLEASE NOTE I COULD NOT CLICK ON THE "ANIMALD SEEN OPTION"

Upon arrival, the main gate was open and I entered the property. And Unidentified female approached me feom inside the house and advises that she is the owners daughter. She advised that her fathet, Marc Blaauw is currently at work. I asked if I can look at the pigeons and she said it is fine.

I went to the pigeon coups and saw that a large green sheet has been pulled over the one side (indicating thay the owner is working with the pigeons and the coup) I saw the inside of the coups still being dirty and unhygienic as old and freah excrement was scattered all over.

- I issued a waring (W4609) stating:
1. To clean and hyginieally maintain the animals living environment .
 2. All the excrement must be scrubbed off.

7 days granted to comply.

Other animals:
Dog 1: Danger
Still on his running chain, has sufficient shelter , clean living environment, water. Good condition, no health concerns.

Dog 2: Spottie
Still on her running chain, has sufficient sheltwr, clean living environment, water. Spottie appears to have a skin condition and it appears that the owner is applying some kind of ointment on the dry skin areas.

I left my contact number and asked the daughter to ask her father to contact me as I wpuld like to discuss Spottie's condition with him.

Will follow up in 7 days

ACTIONS	
Warning Issued	W4609
