General Report Comments: Upon arrival, I was met and granted access to the property by Willene, the owner's wife.

Willene accompanied me to the side of the property where the pigeons and Spottie are kept.

The pigeon coup was empty and all the pigeons were free flying outside the coup. The coup is still dirty and has not been cleaned, but with the pigeons outside the coup I could not issue another warning for this.

I observed Spottie's skin, anf it appears as if her akin condition has deteriorated drastically since my previous inspection.

Willene advised that Spottie was bathed yesterday with a special shampoo.

I advised that Spottie must be assessed by a veterinarian as the skin is looking worse.

A warning (W4617) was issued stating:

1. Spottie's skin condition has deteriorated drastically and must be assessed by a veterinarian and possible treatment provided.

7 days were granted.

No APA contraventions observed regarding Danger (other dog kept in front of house)
