CHECKLISTS

WATER AVAILABLE Yes
ADEQUATE SHELTER AVAILABLE Yes
ADEQUATE SPACE AVAILABLE Yes
CLEAN LIVING ENVIRONMENT Yes
ANIMALS IN GOOD CONDITION Yes
VETERINARY PROBLEMS / HEALTH CO No
CONFINEMENT OF ANIMALS Static Chain - adequate length No gate

General Report Comments: Upon arrival, I was met by the property owner.

I observed the female dog and immediately saw a huge difference in her weight. She has easily gained 4kg and I can barely see her ribcage.

There are currently 5 puppies left. 3 will go to friends and they will keep 2 males. The puppies are kept on the side of the house in an alley that is approximately 7m x 1m with adequate shelter, water and a clean living environment. The puppies are in good condition with no veterinary or health concerns observed. All are BAR.

The puppies are kept on the side of the house to wean them off from drinking from the mother, this has definitely also aided in the mother dog gaining weight. They are currently only drinking in the mornings and are fed puppy food throughout the day. The mother dog is fed 3x a day, a mix of adult and puppy food with house food leftovers. The owner did buy dewormer for the mother dog and has given it to her as well.

The owner is keen on sterilisation and arrangements were made to collect the dog next week. Booking for sterilisation is next week Thursday. I will collect her early in the week to have her ready.

ACTIONS

OTHER Sterilisation arrangements made

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-04-08
