General Report Comments: Maria April the owner let me on the property where I observed 1x brown terrier x female on a 3 meter long chain with a collar. Maria told me that the dog is sterilized and the reason she is on a chain is because the property is not fenced. The dog does not have adequate shelter. I educated Maria about shelter and to put the dog on a running chain. I issued a warning for adequate shelter and to install a running chain. Will follow up.
