General Report Comments: Upon arrival, it appeared as if no one was home as there was no response to my presence. I went to the where the dog is kept, directly next to the house. I saw the dogs ears is beginnig to heal nicely and it appears as if the dog was bathed as the crust on his back was gone and the hair seemed clean and slick.

The neighbor opposite the road approached me and gave me proof that the dog was at Wesland Animal Hospital on the 10th of April 2024.

The dog received treatment for his ears and the skin condition. *copy attached

I will follow up in 2 weeks time again to monitor the progress.

Owner complied with warning issued.
