General Report Comments: While following up on the warning that I left at the kennels where the Border collies are, the owner of the Border collies Jan Cilliers told me that there is another dog on the property that's also being kept in a enclosure but the enclosure is dirty and that the dog has wounds on his ears. I went to do an inspection and saw 1x black terrier x dog in an enclosure. The living space of the dog is dirty and the dog has some flybite wounds on his ears. Water and shelter is available and the dogs body condition is acceptable. There was nobody I could talk to regarding the dog. I issued a warning and left it with Peter who also stays on the property to give to whoever is looking after the black dog. Will follow up.
