General Report Comments: I was met by Sharon who is the owner of the property and also the 2x dogs. I saw 1x brown female terrier x on a long chain with a collar. I asked Sharon where the black dog is that is on a short chain because the complainant said that there is a black puppy on a short chain without shelter. Sharon took me to the enclosed stoep where the puppy is sleeping. Sharon then brought the puppy outside and tied her to the pole, the chain is long enough for the dog to move around and she also has a collar. I educated Sharon that the puppy must have shelter like a kennel when she is outside, although she is under a afdak it does not mean that she has shelter. Sharon told me that she will get a kennel to put under the afdak for when the puppy is outside. The black puppy body condition is acceptable and she does have food and water available. Will recheck again to see if they have a kennel.
