General Report Comments: Upon arrival, an unidentified female met me at the gate and advised that the dogs were bathed over the weekend with Montego Shampoo.

I observed both dogs and am of the opinion that both dogs must be examined by a veterinarian.

The lady gave me Corne's contact number, 0765418730, and advised I call him to discuss the matter.

Corne stated the same that the dogs were bathed. I advised Corne that the dogs require veterinary treatment and that shampoo won't heal them. He advised that he will only be able to take the dogs for assessment at the end of the month. I agreed and advised that I will issue a warning for the veterinary concerns and that compliance is expected by 30 April 2024.

I will follow up to ensure the dogs were taken for assessment and treatment.

Warning issued (W4616) issued stating:

1. Both dogs appear to have skin conditions and must be taken for veterinary assessment by 30 April 2024.
