General Report Comments: Upon arrival, I was met and granted access to the property by the property owner (Mary Ann).

The owner is at work and is normally only home after 17h00 in the evenings.

Dog 1: light brindle/white, can be seen from the fence. The dog is on a light chain extended by nylon rope that is approximatly 10m long. The dog has a suitable collar, kennel which is placed under a roofed structure. The dog has water and food available. His living area is clean. The dog is in good condition with no veterinary or health concerns observed.

Dog 2: brown/white, is kept at the back of the main house in an L-shape enclosure. The area is large enough for the dog, however alot of rubble, and unused items were laying in the dog's pathway which is restricting his roaming area. The area was also full of old and new feaces with a foul smelling coming from the area. The dog is in good condition with no veterinary or health concerns observed. The dog has a kennel, water and food available.

Warning (W4614) issued stating:

1. To clean and hygienically maintain the one dogs living area .
2. Remove all rubble and unused items to provide the dog with more roaming space.
