General Report Comments: Upon arrival, no one was home. The gate was not locked and was a bit open. I opened the gate and entered the property to knock on the front door. Still there was no response.

I went to the back of the property where the one dog is kept. The living area is still clean, the dog has a kennel, is free roaming and is in good condition.

The dog kept in the front yard is on a 10 medium weight chain. The dog has a collar and is 8n excellent condition, however the dog does not have a kennel and currenty inadequate protection against the weather elements. The dog used to have a kennel, not sure wherenit went. I also saw the swivles are no longer on the chain and the chain has begun to twirl.

I issued a warning (W4640) stating:

1. Provide the dog with a kennel
2. Attach swivels to both ends of the chain to prevent twirling
