General Report Comments: The German shepherd x female was put on a running chain but the dog still don't have a collar and shelter. The owner of the dogs mother came out and told me that they still need to buy a collar for the dog and someone is going to make a kennel for the dog. I explained to the mother that they can put the chain through a garden hose and then tie it around the dogs neck so that the chain don't hurt the dog. Water was observed and the dogs body condition is acceptable . I issued another warning to provide the dog with shelter and a collar. Will follow up.
