General Report Comments: Upon arrival, I was met and granted access by the owner, Donovan.

I observed 1x Xbreed dog, male, adult, tan named Danger.

The owner has installed a runner of approximately 8m long. The provided makeshift kennel is not adequate and the owner is waiting for his friend to bring him a pallet for the floor and some planks for the side. The owner does not want to place danger on the runner now, as the shelter is not sufficient. Danger is currently in the house with him.

According to the owner, the kennel will be done over the weekend.

I will follow up next week to verify.
