General Report Comments: Upon arrival, I was met and granted access by Zaneleigh, the owner of the dog.

He accompanied me to the back of the property where I saw 1x Xbreed, adult, brindle, female dog on a short static chain, the chain is approximately 2m long. The dog also had a chain as a collar.

I asked the owner why nothing has been done, he advised that his friend has arranged a cable for him to install the runner. He is just waiting for his friend to being the runner. He further mentioned that he did use a hosepipe for the collar, but the dog keeps taking it off. The hose pipe is too thick, causing too much space between the neck and pipe. He has a thinner pipe now which will work better.

He also showed me where he will install the runner, the runner lenght will be apprimately 7m long.

I granted him a 7day extention to place the dog on the runner. He agreed that if he fails to do so that he will surrender the dog over.
