General Report Comments: Upon arrival I was met and granted access to the facility by the manager, Christelle de Lange.

I observed various animals kept in enclosures of suitbale size and the animals basic needs being catered for.

Facility is busy with a deap clean, which is absolutely necessary. I will recheck on the progress in the next 7-14 days.

The pigs hooves have been trimmed, complied with Patricks Notice to Comply.

I am of the opinion that we will receive regular complaints regarding the Alpaca about shelter . The camp the Alpaca is in is about 3HA, anf has plenty natural shelter on the bottom and far back section of the farm, however this cant be easy seen from the road or facility grounds.

Refer to attached checklist for full particulars of inspection conducted.

This is not like and actual petting farm, but rather a Sanctuary. No direct interaction with the animals are allowed.

They dont have a PAPA, asked that I email them the details. This I will do once I am back at the office.
