CONFINEMENT OF ANIMALS Static Chain - adequate length Jumps the fence

General Report Comments: Upon arrival, it appeared as if no one was home. As I was busy placing the donated kennel, the owner opened the door. She was sleeping, as she works night shift.

The owner and the dog was very happy with the new kennel.

The dog is chained due to her jumping the fence, the do not have money now to make the fence higher and to buy a new bigger gate. The dog is on a 10m light chain, with a propper collar. Has 360 degree space, the dog does not show any signs of behavioral or stereotypical behaviour due to the confinement.

The owner has complied with the warning issued, I am satisfied with the longer 360 chain, as a runner will decrease the dog's roaming space, also the dog cant reach the fence at the back or the side where there are other dogs wich could cause fence fighting.

I will do a final check in a few weeks time
