General Report Comments: I drove past this property on my way back to the office and noticed that Fanta was tied to a very short rope to the fence. The owner Mr Brander was sitting outside and I asked him why the dog was on a short chain as I helped him put up a running chain previously and also provided the dog with a dog kennel because they put Fanta on a runner. The wife came out and said the runner broke and the reason why he is on a leash is because he bites people on the street. I told them to put up a runner again and they said they have a cable inside the house. There was no water available for the dog. i observed a collar and shelter. I told them that they dog cannot be tied like that. I issued them with a notice to comply advising them to put the dog on a running chain and that the dog must have potable water available at all times.
