General Report Comments: Upon arrival, I was met by the owner, Darren Flag. The dog is kept at the back side on the right against the boundry fence.

The dog was seen on a 3m static chain attached to the fence. The dog has a kennel, water and clean living area. The dog had a suitbale collar on.

According to the owner, the dog jumps a 2m high fence with no problem and looks for trouble with other animals in the road, she is also aggressive.

I advised him to install a runner, he took me to the other side of the property, the front section and discussed the area as a possibility. The area is large and will be suitbale for the runner to be installed. The owner advised that he should be dobe by next weekend. We agreed that he will be done by the 13th of May.

A warning (W4623) was issued to:
1. Place the dog on a running chain.
