CHECKLISTS

General Report Comments: Upon arrival, I was met by the owner's son, who is also the care taker of the dog.

The dog was inside the house during the time. They are looking at getting a chain to put the dog on a chain as the property does not have a fence.

I went to the side of the house and advised thwy rather close the one area with a pallet or wooden planks as the dog will then be able to free roam.

He immediatly begun to put the planks together and will place the dog inside to see if it works.

He will have something permanetly implemented by Monday.

I will come around next week again to verify progress.
