General Report Comments: Upon arrival, I was met by Magdalena Karools, the owner's girlfriend.

I saw 3x dogs in total.

Dog 1: Pitbull, male, black, adult tethered to a 1.7m rope with a collar. Has a kennel and water. The dog is slightly underweight with his ribcage visible. The dog was apparently dewormed last week.

Dog 2: Xbreed, male, tan/white, adult tetheres to a 2m rope with a collat. Has a kennel and water. The dog appears to be in fair condition. The dog was apparently dewormed last week.

Dog 3: Xbreed, male, senior, Black free roaming inside the property. Has a kennel and water. The dog was apparently dewormed last week. This dog belongs to Magdalena.

According to Magdalena, the dogs jump the fence, even after they have made the fence higher, and causes havoc in the streets hence the dogs are tethered. She said the dogs are free roaming when the owner is home as they listen to him.

I issued a warning (W4629) to place both dogs on runners within 7 days.
