General Report Comments: Margaret Wessels the owner gave me access to her property where I observed 1x black and white terrier x male on a short chain and the collar he has on is not adequate. The dog is chained because the property is not fully enclosed. Water and shelter is available. I explained to Margaret that there is certain ways to chain a a dog if need to be chained and this is not the right way. I issued warning W5609 to put the dog on a running chain or to extend the dogs chain to have more space. Will follow up.
