General Report Comments: No one answered when we called. There are 2 dogs on the property: 1) Terrier mix female small in the front yard. There is water and food available. She has a big growth between her legs at her back which needs veterinary care. The living area is dirty and must be cleaned. 2) Big soft wire haired male dog white. Good condition. Living area at the side covered with feces. There is no water available that I can see. I put a container with water down for the dog which he drank immediately. I left a warning for the owner to take the light female terrier dog to a vet within 4 days. The living area must be cleaned within 24 hours and there must be potable water available 24 hours a day to both dogs. Both dogs are roaming free on the property they are separated with a gate from each other. I cannot see the shelter for the white male dog properly. There is shelter but cannot see if it is sufficient. Mr Papier from Law Enforcement put the warning into the window at the front door.
