General Report Comments: I saw 1x light tan terrier x male in the street. I asked the people in the street who the dog belongs too because the dog has got mange and I would like to know who the owner is so that I can ask him if the dog are being treated for the mange. The people in the street directed me to the house where the dog lives, a elderly man came out and introduced himself as Kobus Van Wyk. I asked Kobus if he is the owner of the dog in the street and he said yes, I then asked Kobus if he knows that his dog got mange and what treatment is he using to treat the mange. Kobus told me that knows that Whitey got mange and blamed the mange on a lot of lame excuses. I told Kobus that the dog has got mange because of external parasites and that he needs to get suitable treatment to treat the mange and I told him what he can get at his nearest petshop or veterinary hospital. I gave Kobus 7 days to seek treatment for the mange. Will follow up.
