General Report Comments: Upon arrival there was no people at home. I saw 1x brown terrier x male on a +-6meter long rope. The dog does not have a collar and the rope are being used as a collar. Upon closer inspection I could see that the rope are not to tight around the dogs neck but it is not adequate as the rope can cut the dogs neck. Body condition is acceptable. Living area is clean and the dog are also provided with shelter, food and potable water. I issued a warning stating the injuries the rope around the dogs neck can cause if not rectified. Will follow up.
