General Report Comments: Upon arrival the terrier x male Bruno was lying inside the yard. Charne came out of the house with the dip she has bought in town, in her hand she had a bottle of Marltons dog dip. I told Charne that they should dip Bruno once a month and the skin problem will go away as this is still the early stages and not so severe. I told Charne that by dipping Bruno once a month they won't have this problem again. Owner has adhered to the warning and has provided the dog with treatment for the skin condition. Water and shelter was observed. Nfa until further notice.
