| CONFINEMENT OF ANIMALS          | Free roaming - in property |                   |

General Report Comments: I was stopped by Johanna Kupido who wanted me to have a look at her dog because his hair is starting to fall out on his back. Johanna granted me access to her property and I observed 1x black terrier x male called Wiesit. Wiesit has mange and he is scratching himself excessively. I educated Johanna on why it is important to always treat dogs for external and internal parasites to prevent situations like this. I told Johanna that there is a lot of products available to treat the mange for example:Bravecto,Nextguard and Sampirica. Johanna told me that she is getting her pension tomorrow and then she will buy which ever tablet that suits her budget. Water,food and shelter are available. I issued a warning to provide treatment for the mange and will do a follow up within 7 days.

**ACTIONS**

Warning Issued W5646

**REPORT OUTCOMES**

Follow-up inspection to be conducted 2024-06-11
