General Report Comments: Upon arrival, I was met and granted access to the property by the owner, Johanna.

I observed the dog in question. The dog was on a 7m light chain, which is attached to a meterial collar. According to Johanna, the dog decided from last week to begun jumping the fence and they dont want the dog to roam in the street. The dog has adequate protection against the weather elements, has drinking water and is in good condition. Regarding the skin condition, mange, the dog's hair has grown back and you can only see a few dry spots. I educated Johanna that she will have to continue giving him the dog this tablet, otherwise the problem will return. She understood.

I will do a final check in a few weeks time.
