General Report Comments: I was met by Megan the owner of the property. Megan told me that they have received the warning but they were shocked because the don't own any animals. I told Megan that the dog that I saw with the skin problem on the back jumped from their property. Megan granted me access to the property to look for myself if they have any dogs. No dogs was seen on the property. There is also no signs of the people owning a dog. Will have to find where the dog in question lives. Nfa until further notice.
