General Report Comments: I saw 1x brown terrier x male coming from this property. I asked someone walking past me if he knows the dog and he said yes the dog belongs to the people where the dog just came out. I went to knock on the door but there was no one at home. I observed a kennel and water for the dog on the property. The dog has some sort of skin problem and is scratching himself, some bare patches are bleeding from all the scratching. I issued a warning to get the dog veterinary treatment for the skin condition. Will follow up within 7 days.
