ANIMALS IN GOOD CONDITION	No ***	Most of the hens backs are raw and feather loss.
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Feather loss and backs are raw.
CONFINEMENT OF ANIMALS	Caged - inadequate space ***	Chickens are being kept in enclosures that is to small for the a

General Report Comments: Lucas who is looking after the chickens gave me access to the property. We went to the enclosures where the chickens are being kept. The chickens are being kept in 3x4 meter enclosures. Some of the enclosures have to many chickens in it. The hens in the 1x enclosure backs are raw,fatherless due to mating. There is also to many roosters in the other enclosure and the roosters will start to fight and kill each other because of the small space. The 2x2 meter enclosure the chick's are being kept is also to small because I observed +- 80 chick's in the enclosure. Water and food was observed. I issued warning W5060 to get veterinary treatment for the hens with the injuries to their backs,to reduce the number of roosters because eventually they wil start to kill each other and to reduce the number of all the chickens because the size of the enclosures is not sufficient for the quantity of birds there is. Will follow up within 4 days.

ACTIONS

Warning Issued W5060

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-07-01

INSPECTION ANIMALS

Description:

200 x POULTRY (CHICKEN) - CONDITION: UNSPECIFIED
