General Report Comments: The owner Raymond contacted me on my way to Koringberg and told me that he has slaughtered most of the hens with the sore backs that has no feathers on their backs and there is only 6x hens left that he is going to take to the vet to be checked out. On arrival I was met by Lucas who is looking after the property and the chickens. Lucas went with me to the chicken coops. The hens with the bare backs was slaughtered just like Raymond has told me because I only saw 6x hens with bare backs. The chick's that was in the small enclosure was moved to the coop where the hens was first. Some of the roosters was also slaughtered. While there, the owner Raymond arrived. Raymond loaded the 6x hens with some roosters into is bakkie and told me that he will take the hens to the vet and will let me know as soon as he's been there. There is less chickens in the coops. I will do a recheck again o Wednesday. Water, food and shelter is observed.
