**CHECKLISTS**

General Report Comments: Upon arrival, no one seems to be home as there was no response to my presence.

The dog was inside the house again, as the dog was barking at me from inside (video uploaded).

The dog is evidently now kept indoors when the owners are not home, as to where it previously was chained at the front door.

I could see the dog through the one window, the dog appears to be in good condition and was active. The dog is also free roaming inside the house.

I will close this case as there is currently no further APA contraventions. The owners have removed the dog from the chain and the dog has the entire house to roam freely, with sufficient space, ventilation and adequate protection against the weather elements.
