General Report Comments: Upon arrival, I met all 4 owners , as they were on their lunch break.

They showed me the swivels, chain hooks and carabiners, and collars and harnesses they farm owner assisted them with. They are however still due to install the attachments and put the collars, harnesses on. They only received these items today and will begin this afternoon and finish by the weekend.

OWNER 3:

Both dogs collars have been fitted.

OWNER 1:

Dog no longer has a chain collar, but has a harness fitted that fits perfectly.

OWNER 2:

Both dogs have suitbale collars fitted.

The female has a material collar, the male has a chain that runs through a hosepipe fitted.

OWNER 4:

The dog (Male) on a long thin chain has a very strong and durable material collar.

I will conduct a final inspection next week, to see that the swivels have been installed to prevent the chains from twirling.
