General Report Comments: PROACTIVE

Upon arrival, I saw a dog tethered with a rope leash to a pole. The leash is approximately 2m long. The dog had a suitable collar fitted. The dog had a 360 degree movement space. The dog has a large kennel, however the dog does not have access to the kennel as the kennel is on the porch, out of the dog's reach. The dog had water, a clean living area and no veterinary or health concerns observed.

I asked Hennie why the dog is kept in this manner and he advised that the dog is normally kept inside the house and that he places the dog outside to play for a few hours a day and due to not having a fence the dog is tethered. I asked about the dog not having access to the kennel and Hennie advised that due to the dog living indoors he did not see the need to place the kennel within the dog's reach.

I advised that a runner must be installed and that the kennel must move for the dog to have access at all times.

Warning issued:

1. Install a running chain;
2. The dog must always have access to shelter

7 days was granted for compliance.
