General Report Comments: Upon arrival, I was met and granted access to the property by the owner, Hennie.

Hennie managed to install a 30m runner, cable and was extremely proud to show me the progress. Hennie is however to finished yet as he had 2 cables interlinked and used a link to connect the cables, and the swivels get stuck in the middle. I advised Hennie to use a steel plate and just soldeer it thight the the swivel will easily run over the link without any obstruction. Hennie said he will have this done asap, and will ask a friend to assist. He has kept the dog in the interim still on the long rope, as he is afraid the rope gets stuck the dog does not have access to his water or shelter in his absence.

I commended Hennie for his effort and the progress and advised I will come around next week again .

The dog is currently on a 10m light rope, attached to a swivel around the washing line pole, attached to a suitbale material collar. The dog has a suitable wooden kennel, water, clean living area and is in good condition with no veterinary or health concerns observed.
