General Report Comments: Upon arrival, no one appeared to be home as there was no response to my presence.

I observed the dog still on his runner. The runner was working effectively without any obstructions. Although the runners top end stops close to the boundry wall, the dog cant jump over as the attaching chain will hold him back, the dog is also not a jumper.

The dogs kennel is still in good order providing adequate protection against the weather elements. The dog had drinking water in a large 5L plastic container which is kept at the back of the kennel, which also aids in the bowl not being tipped over.

The dog was seen in a good condition with no veterinary or health concerns.

I will close the case now, as the owner complied with my requests and the dogs welfare has been uplifted.
