General Report Comments: Upon arrival, I was met and granted access to the property by the owner, Magdalena.

I saw the dog is on a longer thin chain (approximately 7meters) but the chain has been circled around the kennel, limiting the actual lenght and only allowing the dog 2m space.

Magdalena advised that the chain is now too long as the dog reaches the road. I advised Magdalena that they must then either move the dog further back onto the property or install a runner, which can run from his kennel to the front door (approximately 6m) and attached a 2m chain to the runner as this will prevent the sog from reaching the road.

Magdalena advised that her son is just on the ocean currently and will be back later this afternoon where she will relay our conversation to him and guaranteed progress. I advised her that I will return tomorrow.
