General Report Comments: Upon arrival, I was met and granted access to the property by the owner, Zelda.

The dog is tethered to a post with a rope, the rope is approximately 10m long and the dog can easily access his kennel. The dog has 180 degree radius of movement resulting in the entire roaming space being 20m. The dog had a body harness on, which fits perfectly. Last week the dog had a hosepipe collar with the rope running through the hosepipe. Zelda advised that they bought the harness at a 2nd hand shop over the weekend. Zelda also said their dewormed the sog recently with a tablet they bought at Checkers.

I asked Zelda why the dog is tethered, she advised that the dog jumps over the high walls then runs in the street and causes problems.

I saw the geese as well, they were free roaming inside the property, had access to water, a clean living area, adequate shelter and no veterinary or health concerns were observed.

Since the owner complied with Trainne Insp Mathabela's requests, I am closing this case now as there are no further APA contraventions.
