CONFINEMENT OF ANIMALS	Static Chain - adequate length Property is not fully enclosed

General Report Comments: Carey Ann Jonker the owner of the 2x dogs that I have just seen on the property granted me access to do an inspection. Both dogs are on static chains because the property is not fully enclosed. I noticed that the brown and white dog called Logan did not have a collar around his neck, but a rope. I educated Carey Ann on why a bare chain or rope for that matter is not adequate as a collar because it can cause injury to the dogs neck. Water and shelter is available. Body condition is fair. I issued warning W5068 to provide Logan with a collar. Will follow up.
