The dog still does not have a collar. At the back of the property I also observed a brown pitbull female on a +- 3meter long chain without a collar. The pitbull female was not thereon my previous inspection. Mrs Jacob's told me that they have only received the warning on Tuesday because the lady who looks after her daughter took it with her and forgot to gave it to them last week. I told Mrs. Jacobs that both dogs needs to be on runners that is properly installed and both dogs must be provided with collars. I issued warning W5088 and willi follow up.
