General Report Comments: Upon arrival, I was met by Yolanda.

Regarding the dog on her property.

They have decided to rather build the dog a large enclosure, as she does not like the dog being chained. Yolanda advised that this will be done by the end of the month. In the interim, they have extended the chain by 2m and also attached a swivel to prevent twirlig. The chain is currently 5m long.

They tried to move the food truck, but require a stronger vehicle, as they tried to pull it out with a car but were not successful. He brother will borrow a bakkie and move the truck as this needs to be away for the enclosure to be build. Yolanda showed me the material for the enclosure: pallets, wire and shade cloth, it will be approximately 5m x 7m, which will provide the dog with sufficient space. I will return end of the month to verify this.

Regarding the problem dog in the area:

She have not gone past the house to send me that address yet. They know he reside in Govan Mbeki Road, but dont know the house number, and once she has this details she will forward it to me.
