CHECKLISTS

General Report Comments: Upon arrival, I was met and granted access by the Dwylan, the owner. I asked him why did he return so quick and he looked at me very confused. I advised him that his sister told me that he went to Keimoes for 2 weeks. Dwylan seemed even more confused and said he has not gone anywhere and was in Langebaan the whole time. I asked him where he was on the 5th, and he said he was around but he went to do a small job for someone and that was probably the time I was at his property.

I asked him to call Danger, Danger came from inside the house. I saw Danger has definitely lost a bit of weight since I last seen him, but he is not looking the way when I first saw him. I proceeded to issue a warning for the owner, to have Danger assessed by a veterinarian by Monday, 12 Aug 2024.

Dwylan agreed with me that if he does not manage to take Danger for treatment that he will surrender Danger to the SPCA, even though it will be very hard for him as he is rather fond of Danger.
