General Report Comments: Upon arrival, I was met and granted access to the property by the property owner, and the dog's owner's father, Johannes.

I asked Johannes if the dog was taken for veterinary treatment, and he advised that a white woman, named Dot, assisted them with tick and flea treatment and said the dog is thin as the dog has ticks. (Dot has an welfare organization, and is not a veterinarian.)

I advised Johannes that they are not in compliance with the issued warning, as the warning clearly stated the dog must be assessed by a veterinarian. I asked Johannes if they dont rather want to surrender the dog and he said he will talk with his daughter tonight and let me know.

I advised Johannes that I will issue a final warning, and grant them till Monday to have the dog assessed by a veterinarian, and that they are welcome to surrender the dog if they cant.

He agreed to the terms.

Warning was issued, as per above.

Regarding the shelter and chain, refer to previous report and warning, as the owner still has time to comply.
