General Report Comments: Upon arrival, I was met and granted access to the property by the owner.

I observed a runner installed and the dog being on the runner. The runner is approximately 12m long, with a swivel installed. A strong leash has been used and is attached to a material collar on the dog with a swivel, preventing the leash from twirling. The owner obtained a large wooden kennel for the dog, which provides adequate protection against the weather. The dog also had drinking water available. The dog appears to be in good condition with no veterinary or health concerns observed.

The dog is fed Bobtail puppy, 2x day and was dewormed and dipped last month at the mobile clinic.

I will do a final routine check in a few weeks time
