General Report Comments: PROACTIVE

Upon arrival, no one appeared to be home as there was no response to my presence.

I observed 1x German Shepherd type dog chained at the back of the property. The chained appeared to be 3m long. I could not verify what kind of collar was fitted. I could also not see any shelter, however the dog's coat seemed dry from where I was standing.

I went to the right side of the property to see if I can get a better view of the dog, but my view was limited, I could still not see any for of shelter, I could only see that there is a wall and that the roof appeared to be extended, might be an outside room, I could mot confirm.

I issued a warning:

1. Place the dog on a runner
2. Ensure the dog has adequate protection against the weather elements.
