General Report Comments: I saw 1x black and tan Rottweiler female on a static chain lying in her kennel next to the fence. The dog looked very sick. Green mucus coming from the nose and puss from the eyes. I called and she had little to no reaction. Water and food is available but I could see that she has not touched her food. There was no people at home to speak too. I issued warning W5089 to seek veterinary treatment for the dog within 24 hours because I could clearly see that there is something wrong with the dog. Will follow up.
