General Report Comments: I saw 1x brown terrier x lying inside the kennel. I hooted in front of the house but no one came out. The only came out of the kennel for a second and went back inside. I could clearly see that the chain is about 2 meters long. The dog is provided with a collar. Water was also observed and the dogs body condition is acceptable. I issued warning W5093 to put the dog on a runner or extend the dogs chain. I also left a pamphlet on how to chain a dog if the dog needs to be chained. Will follow up.
