CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Dogs are underweight
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Dogs are underweight
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	Poor fencing in front, no gate

General Report Comments: Upon arrival, I entered the property as there is no gate. I knocked on the door but got no response. A gentleman who identified himself as Wilfred came from accross the road and advised his father is working today. I asked him if his father discussed the content of last week's warning with him and he said no. I shared the current concerns with Wilfred, which are.

1. The dog at the back is still on a short chain (approximately 2m long), restricting the dog's space.
2. Both dogs have lost weight since I saw them a week ago, which is rather alarming.

A warning was issued accordingly, 5 days granted.

1. Feed dogs 2x day
2. Take dogs for veterinary assessment
3. Place the dog at the back on a running chain

The owner has complied by removing the chain collar from the dog in front, as the dog now has a body harness on, this dog's chain has also been extended and is currently 7m long. The dog has a 180 degree radius movement space. A suitable wooden kennel, with blankets inside. A large water bucket with water in, and a clean living area.
