General Report Comments: Upon arrival, I was met and granted access to the property by the owner's girlfriend, Meagan.

Meagan advised that she had to leave but that I can go and have a look at the kennel.

The kennel is well build inside the cage and although it provides adequate protection against the weather elements, Ethan will have to elevate the floor as the current floor structure is still sand. I will message him regarding this.

The dogs had water and their cages were clean today. Brandy has evidently gained weight since my first inspection.

I will follow up next week regarding the cage enlargements.

ACTIONS

OTHER To message owner regarding elevating the floor inside the kennel of
