General Report Comments: Upon arrival, no one appeared to be home as there was no response to my presence.

I observed 2x dogs laying in the front section of the yard. The dogs appeared to be in good condition with no veterinary or health concerns observed.

The neighbor across the road, at 30, approached me and advised that the property owner is at work. I asked if she can verify if the dogs have access to shelter, but unfortunately she could not.

The property is rather large and the dog ran to the back yard, while I was at the property. I can't see if the dog has shelter at the back. I went to the neighbor at 27, to ask if I can look over the wall to see if there is shelter in the back, however there was only a child home and I did not feel comfortable entering the property with only a minor present. I also went to no 31, but there is no way to look at the back yard as the wall is too high.

I issued a warning:
1. To contact me within 72 hrs.
