ANIMALS IN GOOD CONDITION	No ***	Both dogs Underweight, female boerboel has green discharge
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Underweight, discharge from the eyes.
CONFINEMENT OF ANIMALS	Caged - adequate space	Unknown

General Report Comments: I obtained a warrant from the Malmesbury magistrates court to do an inspection on the plot where the 2x boerboels are being kept. Field officer Chiwawa and I went to the property. Peter who stays on the property gave us access. On the property I observed 1x brown boerboel male in a enclosure. The enclosure is dirty and dog poop was lying all around. The dogs water bucket was also empty. The male boerboel is also very thin and I could see his rib cage that's how underweight the boerboel is. At the other side of the property I observed a tan female boerboel also in a enclosed space with no water or food. The female boerboel is also underweight and she has green discharge coming from the eyes. I decided to confiscate both dogs because the welfare of these are not being adhered to and I previously confiscated a brown female boerboel from this property that was very thin and also had tickbite fever. Both dogs was confiscated with a warrant. Refer to admissions D8353 and D8354. Will follow up.

ACTIONS

ANIMAL/S SEIZED D8353,D8354

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-07-22
